STEPHEN L. BOWEN
COMMISSIONER

TO: Superintendents Who Submitted Major Capital Improvement Program
Applications for the 2010-2011 Rating Cycle

FROM: Stephen L. Bowen, Commissioner

DATE: March 9, 2011

SUBJECT: Major Capital Improvement Program – 2010-2011 Rating Cycle

Thank you for your participation in the Major Capital Improvement (School Construction) Program 2010-2011 Rating Cycle. Enclosed you will find your School Facilities Evaluation Report.

The findings contained in the Evaluation Report represent the latest data available on school needs and conditions gathered as a result of the 2010-2011 Major Capital Improvement Program evaluation process. These data, however, do not determine how many projects will qualify for funding for this Rating Cycle. Funding will depend on initial cost estimates considered by the State Board of Education later this spring or summer. Projects not funded in this Rating Cycle are eligible for reapplication in the next Rating Cycle. By State Board of Education Rules Chapter 61 health and safety improvements and energy efficiency improvements made between this rating cycle and the next will not adversely affect scoring in the next rating cycle.

Members of the evaluation team will be available for individual Informational Meetings during the latter part of April to meet with school superintendents to answer questions about their Evaluation Report. Appointments for these Informational Meetings can be made by calling Karen Bossie at the Department of Education, 624-6848. We encourage you to schedule and attend an Informational Meeting prior to considering any Request for Administrative Review.

PLEASE NOTE: Pursuant to Chapter 61, if you wish to appeal your rating(s), you must file a Request for Administrative Review with the Commissioner of the Department of Education within sixty (60) days following receipt of your School Facilities Evaluation Report. Requesting an Informational Meeting discussed above will NOT extend the 60-day deadline for appeal. The Request for Administrative Review form is available online at:
